ORGANISATIONAL EXPERIENCE

Jan'2020 – Currently working

Infosys Ltd, as Technology Lead / Lead frontend Engineer

- Saved up to 70% effort for each application by developing common user authentication system.
- Converted legacy unresponsive web apps to responsive UI which later replaced their old mobile app.
- Worked on web apps performance optimization by implementing proper minification, lazy loading of resources achieved 22sec page load speed to 3.2sec page loading speed.

Jun'2017 – Jan'2020

CodeClouds IT Solution Pvt. Ltd., Kolkata as Sr. Web Developer

- Created funnel-based ecommerce apps for SME clients, integrated multiple CRM to track upsell product sell.
- Build SEO optimized web apps which used to generate organic traffic to get online web development clients.

Jun'14 to May'17

Aslog Technologies Pvt. Ltd., Kolkata as Web Developer

- Responsible to develop reusable JavaScript modules which can reduce repetitive dev build effort.
- Developed multipurpose reusable admin panel using MEAN stack. Which reduced custom product development ETA, which leads to reduce the development build effort by 30 to 50 % for each project.

Sep'13 - Jun'14

MET Technologies Pvt. Ltd., Kolkata as Junior Web Developer

Helped to develop their inhouse projects related to telecom web apps which reduced their manual data capturing ETA by 60%
